

Intent	At Alderman Cogan's we want to give all our children the best possible start in life academically, as citizens and as lifelong learners. Above all, we want them to be highly literate and able to have all the learning necessary to help them to thrive in a complex, changing and competitive world.
	We want all our students to be ambitious for themselves and about their futures. We will provide the pathways and support for them to realise their ambitions, 'through a Christian lens'. At Alderman Cogan's CE Primary Academy our high-quality music education is designed to engage and inspire pupils to develop a love of music and bring out their talents as musicians and so we hope to increase their self-confidence, creativity and a sense of achievement. Our aim, through musical education, is to foster a love of music, instruments and performance, by giving every child an opportunity to find their passion for music. We want to show children the opportunities in the wider world, whether this be to have music as a passion or even a future career, the possibilities are endless. Our EYFS and KS1 curriculum is delivered through Charanga. All children at KS2 are taught weekly by a specialist from Hull music service this is in addition to our extensive extra curricular offer.  The school has developed a progression adapted around Charanga's scheme for the Model Music Curriculum follows a differentiated, spiral approach to musical learning which responds to the national requirements for musical education. Within each unit of learning, students revisit existing knowledge and skills and then build
	upon and extend them incrementally. In this manner, learning is consolidated and augmented, allowing for increasing musical confidence, while constantly being gently challenged to go further. <a href="https://www.hullmusicinteractive.org.uk/c/1356466-english-model-music-curriculum">https://www.hullmusicinteractive.org.uk/c/1356466-english-model-music-curriculum</a>
Substantive Knowledge in Music	Substantive knowledge focuses on developing children's skills and knowledge required for them to develop as musicians. This is achieved through deliberate practice and allows children to develop and demonstrate fluency of knowledge. It involves learning about music across a range of historical periods, genres, styles and traditions, including the works of the great composers and musicians
Disciplinary Knowledge in Music	Disciplinary knowledge in music is the interpretation on the interrelated dimensions of music and how this knowledge is used when singing, playing instruments, improvising and composing, to develop creative and original pieces and performances. Children work independently and collaboratively to interpret and combine the dimensions of music to create a specific and desired effect.

#### EYFS Building the foundations for Music

#### Nursery

Music is part of every day life in our Early Years setting. We know how important it is for young children's development to provide them with opportunities to develop musical skills and knowledge. We aim for our children to discover the magic of music and build secure foundations so that they can later successfully access the Music National Curriculum. They build these foundations through developing their Communication and Language, Personal, Social and Emotional Development and through Expressive Arts and Design.
